Emily Graham, Volunteer Coordinator

Mammoth Hospital is very happy to have Audrey Krall Pauly, M.D., obstetrician & gynecologist (OB/GYN), join Sierra Park Women's Health Services. Dr. Pauly and Rick Hamilton, MD, Director of Sierra Park Women's Health, both practiced in the South Bay area of Torrance many years ago. When Dr. Pauly moved to Swall Meadows, Dr. Hamilton was enthusiastic and invited her to come on board at the hospital. She is the OB/GYN coverage on Wednesdays and specializes in everything from birth control to menopause.

Dr. Pauly grew up in New Jersey and attended college in upstate New York at Cornell University. She moved to Syracuse, New York, to achieve a master's in anatomy and then obtained her medical degree at the Medical College of Pennsylvania. Her OB/GYN residency training was at Johns Hopkins Hospital in Baltimore, Maryland. In 1988, Dr. Pauly relocated to the beautiful California coast in Torrance where she worked for 15 years.

In the summer of 2003, Dr. Pauly, her husband and their 10-year-old daughter moved to the Eastern Sierra to Swall Meadows and they are all pleased to be living here. She is very happy to have the time to spend with her family. She loves that she can be a "mom" and has the opportunity to spend quality time with her daughter and husband. During the winter the family enjoys skiing and snowmobiling; and in the summer they love quad riding. She is also a member of the women's book club in Swall Meadows; is a parent liaison for the student council at her daughter's school, and she is also a room mom. Dr. Pauly is delighted to be here and is looking forward to getting to know the community and the Mammoth Hospital staff. She said, "In my short time at Sierra Park Women's Health Services, I have been particularly impressed with the staff's dedication in helping the community meet its health care needs by applying for grants and government programs to cover medical costs for hard working uninsured women." Please help welcome Dr. Pauly at a reception in the new Mammoth SPORT Center at Mammoth Hospital on Friday, March 4<sup>th</sup> from 4:00-6:00pm.
